## Mentoring Models for College Success

Thursday, October 29, 2020

3:00 - 5:00 PM

### EXPERT PANELS — and your questions!

- **High School Planning for College Success**
- **Mentoring Models to Support the College Transition**  
from summer melt through enrollment and engagement

The first panel discussion will focus on ways High School faculty and staff can support students' choice-making about the types of institutions and programs that will lead them to success in college - and on how students can become academically, emotionally and "practically" ready.

The second panel will focus on ways to ease the transition into college - overcoming summer melt, selecting the "right" courses and becoming engaged in college life, even at a distance - in order to maximize student retention and persistence.
